The sequence of steps taken to screen, transport, and conduct the surgery are as follows:

- 1)The patients who come to the camp site are registered
- 2) The patients are screened to determine their eyesight problem
- 3) Those found in need of cataract surgery are tested for inter-

ocular pressure

4) Patients are then screened for high blood pressure and blood sugar

5) The patients who do not have any health complications and are deemed to be in need of cataract surgery are subjected to a final screening by the ophthalmologist

6) Patients are then transported to the hospital by bus provided by the OXIGEN & SAHYOG Foundation

7) The patients are admitted to the hospital and are operated

the same day.. During the surgical procedure, clouded lens is removed and a plastic intra-ocular lens is implanted

8) After staying for few hours, the patients are checked to ensure that there are no complications and are then transported back home.

While thanking the surgeons of Lions Eye Hospital Dr Anita Arora & Dr.Seema Puri and their teams for their honest &dedicated hard work Mr. Rajpal Singh Duggal CFO CSR Head at Oxigen Services said "I am very happy that each one of us, privileged to be part of this grand human experience, by this unique service project".Oxigen & Sahyog Foundation, seeks the continued patronage of corporate to transform the quality of life of the villagers into a productive one and deliver quality eye care to the rural masses and to those living in inaccessible and remote areas.

We express our heartiest thanks to Dr. Manoj Dubey and Camp coordinator Mr. R.N Bajaj for their generosity in referring the patients and accompanying us to the hospital and continuously monitoring the situation at the hospital and ensuring they reach home safely with new vision. Special thanks to the Medical Superintendent & senior surgeon at Lions Eye Hospital who came to meet the patients while they were discharged.

It is a step to improve the quality of life of the old and infirm senior citizens, who, after the surgery and lenses implant, will be able to lead an independent life. Senior citizens from underprivileged remote & Marginalized areas underwent the free cataract surgery with use of latest state of art equipment for implantation of intraocular lenses till now"

Happy to Share that, they are now able to feel the world once again through their improved visions.
