

Eye Care Camp  
Phulwari NGO, DLF P-1, Gurugram

## Camp Venue Details

Date of Camp: 21<sup>st</sup> December, 2018

Camp spot: Fulwari NGO, DLF phase 1 , Gurugram

Financial support for the Camp: Oxigen & Sahyog Foundation.

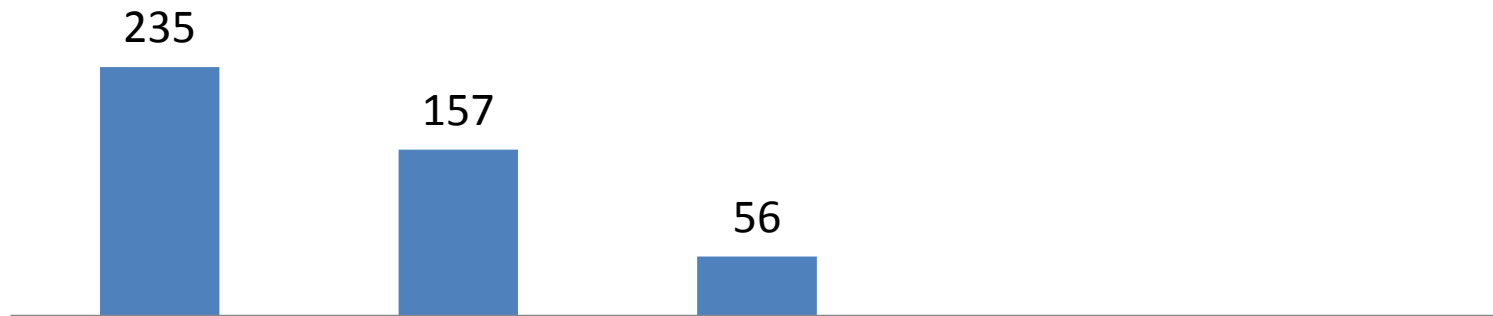

## Objectives Of The Eye Camp

- Provide Eye screening services to the community.
- Provide both preventive and curative treatment for common eye problem.
- Refer those who require specialized treatment as necessary.
- Provide information on prevention and management of preventable eye diseases.
- Encourage use of available nutritious food products in the area.

Early detection and treatment are the only two sure-shot ways to cure visual impairment and defects in children. Eye Screening for School children is rarely done. Early detection is crucial for the success of treatment in children. Even if some eye diseases are detected in children, eye doctors who take care of children are sparse and poor families cannot afford to go to big hospital to get proper treatment or surgery. Oxigen & Sahyog with an aim that the right to good sight is the right of every child conducts eye screening and vision test for under privileged children at Ngo's on regular basis and wherever necessary spectacles and medicines are provided free of cost. For all those who require, arrangements are also made for surgeries and other treatments free of cost. Such Camp was organized at Pulwari Ngo in DLF Phase 1, GGN, where in 235 students from Class II- VIII were screened , 56 Spectacles, 157 Eye drops and 600 Vitamin A doses were handed over to the ngo authorities . Students were also educated on prevention of serious disabling eye diseases

Total No. of Patients Screened	235
No of patients to whom Medicine(eye drop) was given	157
No of Patients to whom Spectacles was given	56

## Achievement of the Camp

In all, more than 235 patients were examined out of which 600 doses were distributed to the children who were effected with vitamin A deficiency.

## Highlights

Thank You!!
