### Eye camp no-18 /FY19-20

Continuing the back to back success of “Eye Camp” in past eight years, a CSR team from Oxygen & Sahyog Foundation this time reached Giri nagar resettlement colony at Kalkaji to conduct a day long “Free Eye Camp” on 2nd August 2019 .The camp was stationed at Local NGO Adharshila learning Center.

The Eye Camp was conducted mainly for diagnostic screening and eye examining. The Dwellers were provided with free eye drops & glasses and a

counseling session on preventive care concerning eye health was organized. Altogether 204 patients and 32 students were benefited from the camp.76 Spectades and 112 eye drops were distributed to the patients requiring them. 9 patients were identified with cataract and 8 were referred to Base hospital for further examination. Around 45 patients were identified with night blindness and were prescribed with Vitamin A tabs and

Nutritious diet specially Milk & Green leafy Vegetables intake .At the end of the program, the Adharshila team thanked Oxygen & Sahyog Foundation CSR team the for organizing the camp and continuous effort made the success of the program possible. The community also expressed gratitude to the entire organization team for the noble service that helped hundreds of people to cure and identify many vision related problems.

It was felt during the camp that there is more need to do such camps in this remote area where ophthalmic services are no where exists for prevention of avoidable blindness.

Oxygen CSR team committed to organize such camps in the coming future. It was also decided to organize vision screening camps in the school to screen the students suffering with visual impairment.
