It is alarming that 282 million people worldwide have abnormal vision and 14% of them are completely blind. Also of concern is the fact that 90% of visually impaired people live in low-income settings. Oxigen & Sahyog Foundation under CSR Initiatives is on a mission to improve the eye sight of such needy communities and prevent blindness among them.

"Misinformation and stigmatization has dramatically impacted patients with HIV/AIDS across the globe,"

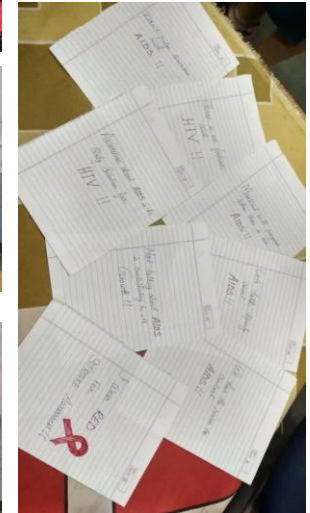

On the occasion of World AIDS Day on 1st December 2020 Sahyog Foundation in association with JSS organized a workshop at JSS center in Pandav nagar where the women participants were debunks with the top five myths associated with HIV/AIDS along with educating them about what is HIV and how it spreads. Group was also made understand that with correct treatment and guidance of an infectious diseases physician, many people with HIV live for years without developing AIDS; unfortunately, these patients continue to be bogged by stigma," so we should help and support them rather than ignoring them. Overall, one needs to be aware about the vagaries and dangers associated with HIV and take all precautions.

“Awareness about AIDS is the only solution for HIV....

We wear red ribbon 🎗 for STROKE awareness....

There is no future with HIV.....

Let's talk openly about AIDS.....

Thanks to the generosity of our wonderful supporters, Sahyog foundation celebrated Christmas and upcoming New year with children's and women group in Bengali slum community with great zest this December. These annual parties are a special time when the kids and women, forgetting their poverty and deprivation, can freely enjoy themselves. This year the party, along with food and drinks, included cultural performance ranging from dance to drama and singing. The children, especially the younger ones, were thrilled to meet with friends as all of them are missing School and school friends.
