Eye camp no-16 /FY20-21

Oxigen-Sahyog Foundation and NGO Adharshila working for the construction site Migrants at Greater Noida jointly organized a Free Eye and General Health check-up camp for the migrant workers employed at Vista green construction site.

Camp Was planned after discussion and understanding that, “Migrant workers are vulnerable to host of diseases due to their living conditions. In times of Covid-19, workers tend to avoid going to the hospitals or clinics fearing coronavirus. Thus, we have decided to go their doorstep for their health screening and diagnosis.”

“A team of expert doctors including physicians, and ophthalmologist provide consultancy to the workers. Few workers were found suffering from disease, so were referred to the private hospitals or New Civil Hospital (NCH).”

The health check-up camp began at 11 am at the construction site Ground floor. One of the hall corners was transformed into a Medical center by the construction company. Adharshila team arranged for the Physician and General Health checkup tools including height, weight, B.P and Sugar

Free Eye Check-up Camp partnered with Sahyog Foundation for the ones who are in need to get it checked or not able to get it checked due to financial crisis. The camp is arranged taking into consideration all the safety measures required for COVID-19. During the camp, 145 construction workers were screened for any eye ailment, free spectacles were distributed to 47 patients and 9 patients were diagnosed and registered for detailed free eye checkup and were referred to Private eye hospital . 65 patients were administered with eye drop and individual counselling session was also conducted to all the registered patients.
