

General Health Check Up Camp

*General Health Camp Report
Khedki Dhaula, Gurugram
March 10, 2021*

Health is the primary Wealth of human beings and must be protected

As a Health and Sanitization CSR Initiative of Oxigen Sahyog Foundation health checkup camp was organized & Implemented by Sahyog foundation at Village khedki Dhaula on March 10,2021.

The objective of conducting the health camp was to create awareness of general health among the people, provide general health care services and counseling them on basic healthcare and hygiene. The camp was organized at Government School building of Khedki Dhaula village. The camp started in the morning with an inaugural speech by School Principal where he said that “The main objective of the camp is to make people aware of the health issues and is exclusively organized for poor people who hardly can afford quality treatment

for their physical issues”. The students of the school worked as volunteers to manage the queue and the crowd. While registrations were being done, Team member from Sahyog Foundation tried to talk to people about importance of health & hygiene, Dengue, Typhoid, and Diarrhea etc. For the awareness of the people. 90 people got benefited from camp most of them came from a section of the society who cannot enjoy the

privilege of expensive medical services. **This camp did prove true to charity that begins at home.** Most of the people who attended the camp were suffering cold & Cough and Stomach pain because of polluted water and lack of drainage facility. People were also diagnosed with various common but seriously neglected problems such as diarrhea, cholera, acute flu and infection in the eyes. There were also a few cases, where problems related to urethral discharge, the kidneys were detected; these cases were further referred to the referral hospital, where they will be properly taken care of. There were around 15 students who complained about Ocular pain & Headache, those students were advised to

consult an eye specialist and get their Vision checkup down. All the patients were provided with free medicines and vitamin tonics and those suffering from cholera were given ORS. After checking up, the doctors even prescribe necessary actions and precautions if needed to be taken. Speaking on this occasion the doctor advised all students to look for personal hygiene and care, both for themselves and their family members. They also educated the student’s on ways and benefits of cleanliness around their houses and localities.
