Eye camp no-4/FY20-21

An 'Eye Screening Camp' was organized at Rishal garden Nangaloi on 30 October 2020 at JSS Vocational training center . The camp was conducted by an eye team from SahyogFoundation and the ground support of JSS. The objective behind this camp was to spread awareness and educate people of all ages from children to young people and among elderly about various eye disorders which can be timely intervened and managed with a routine eye check up as most people do not realize until it is late that they have some disorder with their eyes.

The promotion for this camp was done to a wide extent by means of passing the information through meetings and publicity among the residents of as well as the neighbouring colony . The camp was attended by more than 100 patients within the Rishal

Garden & Adjoining area who had various medical conditions with their eyes and had found this free camp as a blessing in disguise to free them from their trouble. Around 9 cases of cataract was reported during the screening and 11 cases were referred to Eye hospital for further investigation while 2 patients were advised for surgery due to eye related complications. 42 spectacles and 71 eye drops were given to the Patients free of cost. Out of

the reported 11 cases, 7 cataract patients were motivated for the surgery and once ready will be taken to Lions Eye Hospital, for cataract operation.

The joy on the faces of the residents of colony could be seen as they were elated and eager to avail the benefit from this camp.
